PROFILE SUMMARY

Full Stack Developer with 13+ years of experience (including correspondence study while employed full-time), with deep expertise in React.js, Next.js, and TypeScript on the frontend and growing strength in Node.js, Express.js, and REST/GraphQL APIs on the backend. Proven track record across e-commerce platforms (Magento, Shopify, WooCommerce) and data-intensive SaaS dashboards, consistently improving Lighthouse performance scores from ~55 to 90+. Uses AI-assisted development tools (Cursor, GitHub Copilot, Claude, ChatGPT) daily to accelerate delivery without sacrificing code quality. Comfortable owning features end-to-end, from requirements through deployment.

CORE SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, GraphQL, Axios, Fetch API

Database: MongoDB, MySQL

Styling: Tailwind CSS, SASS/SCSS, Material UI, Bootstrap

State & Architecture: Redux, Context API, Component Design Patterns, Modular UI Architecture

Performance & Quality: Code Splitting, Lazy Loading, Memoization, Web Vitals, Cross-Browser Compatibility, Accessibility (WCAG basics)

Testing: Jest, React Testing Library (unit & component-level testing)

Cloud & DevOps: Git, GitHub, Docker, CI/CD, AWS, Vercel

AI-Assisted Development: Cursor, GitHub Copilot, Claude, ChatGPT

CMS & E-commerce: Magento 2 (Adobe Commerce), WordPress, Shopify, WooCommerce

KEY ACHIEVEMENTS

- Delivered 25+ production-grade web applications across e-commerce, SaaS dashboard, and full-stack products.
- Improved average Lighthouse performance scores from ~55 to 90+ across multiple client projects through code splitting, lazy loading, and asset optimization.
- Transitioned from frontend specialist to full-stack development, adding Node.js, Express.js, and database (MongoDB/MySQL) skills since 2024.
- Mentored and onboarded junior frontend developers through code reviews and pair programming.

PROFESSIONAL EXPERIENCE

Full Stack Developer — ionicwebs (Remote)

Apr 2024 – Present

- Working across the full stack using React.js, Next.js, TypeScript on the frontend and Node.js, Express.js, MongoDB/MySQL on the backend.
- Built and maintained REST and GraphQL APIs, handling authentication, data validation, and integration with third-party services.
- Designed and developed scalable applications end-to-end, from requirement analysis through implementation, testing, and deployment.
- Deployed and managed applications using Docker, CI/CD pipelines, AWS, and Vercel.
- Uses AI-assisted tools (Cursor, GitHub Copilot, Claude, ChatGPT) daily to speed up development, debugging, and code review without compromising quality.
- Built reusable UI components and shared libraries aligned with established design systems and best practices.

Senior Frontend Developer — Nolte FZE (Remote)

Jun 2022 – Mar 2024

- Built data-intensive dashboards and admin panels using React and TypeScript, with a focus on clarity, usability, and maintainability.
- Implemented scalable component architecture and robust state management patterns to support complex, data-heavy user interfaces.

- Integrated REST APIs and handled asynchronous data flows, ensuring reliable data fetching, error handling, and UI state synchronization.
- Collaborated closely with backend engineers on API contracts and UI behavior to align data models and streamline delivery.
- Mentored junior developers and contributed to team knowledge sharing through code reviews and pair programming.

Web Designer → Frontend Developer → Senior Frontend Developer — Commerce Pundit — Ahmedabad Apr 2015 – May 2022

- Led end-to-end frontend development for enterprise-scale web applications as Senior Frontend Developer, ensuring high-quality user experiences aligned with business requirements.
- Designed and implemented reusable UI components and patterns, contributing to a consistent design system across projects.
- Collaborated in Agile teams with designers, backend engineers, and QA, participating in sprint planning, code reviews, and iterative feature delivery.

Web Designer — Rlogical Techsoft — Ahmedabad, India Nov 2010 – Apr 2015

- Designed and developed 30+ responsive websites using HTML, CSS, Bootstrap, and WordPress.
- Improved website performance by 30–40% through code refactoring and asset optimization.

PROJECTS

Job Portal Management System

Tech Stack: *Next.js, Node.js, Express.js, MongoDB, JWT, Cloudinary, Nodemailer*

- Built a full-stack job portal with separate Candidate, Recruiter, and Admin dashboards, including role-based access control (RBAC).
- Implemented JWT authentication, resume upload via Cloudinary, and automated email notifications via Nodemailer.
- Designed MongoDB schemas and REST APIs to support search, pagination, and multi-role workflows end-to-end.

E-Commerce Marketplace

Tech Stack: *React, Next.js, GraphQL, Apollo Client, MySQL, AWS, Redux, HTML5, CSS3*

- Built frontend features for a multi-vendor e-commerce marketplace, including product listing, search/filter, and cart flows.
- Integrated GraphQL APIs via Apollo Client to fetch and manage product, pricing, and order data.
- Used Redux for centralized state management across catalog, cart, and checkout views.

ERP System

Tech Stack: *React, Tailwind CSS, React Router, Redux, ApexCharts, Axios, MySQL*

- Built frontend modules for an internal ERP system covering data-heavy admin and reporting screens.
- Implemented interactive dashboards and visualizations using ApexCharts, backed by REST APIs via Axios.
- Used React Router for multi-module navigation and Redux for shared application state.

EDUCATION

Bachelor of Business Administration — Arunodaya University Mar 2019 – Aug 2022
